

HIGH PERFORMANCE LOW PROFILE TRIMMER

LO-PROFX

LO-PROFX got its name because of the super low profile design.

The weight, balance and ergonomics on the trimmer were dialed in based on 100's of professional barbers' feedback.

LO-PROFX - a classic Americano style trimmer. A low profile metal lid, ergonomic thumb indent, and solid weight/balance makes it feel absolutely perfect in hand. Digital 6800rpm motor, high capacity battery and Graphite blade make this an all-around fading machine.

If you like to feel a solid machine in hand, this is it!

Figure out what has the best user experience for you and your client. Experience the LO-PRO FX726E and see how you feel about it.

No doubt you will feel great!!

High performance & high torque digital motor

- 6800 rpm with constant speed tech - 13600 strokes/min
> stays at 6 800rpm for full 4 hours of cordless runtime
- over **21 000** cutting actions achieved per second by the blades
> outstanding cutting performance

Lithium-ion battery – cord/cordless operation

- Up to 4 hours of cordless runtime reached on a 3-hour charge time
- 3,300 mAh capacity
- LED low-battery indicator

Graphite deep-tooth 2.00mm T-blade

360° exposed & zero gap adjustable

Why using a deep-tooth T-blade?

It is the ideal blade for thick and coarse hair and for less sensitive skins.

It creates very clean lines.

What are the benefits of a Graphite blade?

- Ultra-low friction
- Extremely durable
- Lower blade temperature – no overheating

Low profile metal shield cover

Slim ergonomic thumb & bottom grip for perfect control and comfort in use

Dual voltage
