

BARBERS' BLOW-DRYER EDM TECHNOLOGY*

BAB8000IE ▶

Crafted from high quality stainless steel for strength and durability, with an ultra-sleek, shiny finish, the **STEELFX** BAB8000IE's robust all-metal housing has been engineered for total professional reliability and uncompromising integrity.

Its body is scientifically balanced for superior ergonomics and its handle designed to perfectly fit the palm of the hand and to relieve muscular tensions in the forearm, providing a better control and reducing strain.

* Electronic Digital Motor

Provided with a FERRARI designed Electronic Digital Motor, its lifespan is up to 10 times longer than traditional hairdryers and driven by electronics for optimum output. Air flow and speed are constantly controlled for maximum stability. There is no decrease of power, nor decrease of performance. Vibrations are significantly reduced.

Its **speed** (19 000 rpm) **and high level of performance** - up to 180 km/h airspeed - 1400 Pa air pressure - makes it perfect for ultra-fast drying of every type and texture of hair.

According to whether used with or without its concentrator nozzle, temperature (115°C with nozzle - 70°C without) and airflow (93 m³/h with nozzle and 64 m³/h without) levels are perfect for maximizing drying and styling of every hair but also every beard.

Its **efficient ionic generator** makes drying and styling easier in decreasing tension at the hair surface, giving smooth, shiny and healthy hair.

The STEELFX features 12 speed and temperature settings for maximum flexibility and cold shot for the final touch.

Its **all-metal housing** stays cool in use.

The **STEELFX** BAB8000IE blow dryer is very comfortable to use, even intensively.

After use the microfiber cleaning cloth provided will help keep it clean and shiny and its pouch will allow to store it safely.

Features

- Powerful: 2000 W
- Ionic
- Air speed: 180 km/h
- Air flow: 93 m³/h
- Air pressure: 1400 Pa
- Drying rate 5.6g/min
- 6 mm x 60 mm concentrator nozzle
- 12 speed and temperature settings - Cold air button
- A 540 g-only full-metal dryer
- Storage pouch and microfiber cleaning cloth
- 1-year + 1 guarantee
