## LO-PROFX

COLLECTION

**LO-PROFX** – a classic Americano style collection.

A **low-profile metal lid**, ergonomic thumb indent, and solid weight and balance make it feel perfect in hand. High-performance, high-torque **digital motors**, high-capacity batteries and **Titanium** zero-gap adjustable blades make the LO-PROFX all-around de-bulking and fading machines.

LO-PROFX, the perfect machines for overall feel, power, and cutting performance.

FOR ARTISTS COLLECTION —

# LO-PROFX

LOW PROFILE HIGH-PERFORMANCE CLIPPER

The LO-PROFX clipper features an ultra-low profile metal shield cover with an ergonomic grip housing.

Powered by a high-performance digital 6,800 rpm motor with a high-capacity 3,300 mAh lithium-ion battery, the design and power are completed by arming the clipper with a low temperature **Titanium** blade.

## High performance & high torque digital motor

- 6,800 rpm with constant speed tech
- Over 516,800 cutting actions achieved by the blades in a minute
  - > outstanding cutting performance.
- Custom made metal motor bracket
  - > optimal balance

## Lithium-ion battery cord/cordless operation

- Up to 140 minutes of cordless runtime reached on a 4-hour charge time
- 3,300 mAh capacity
- LED low-battery indicator

## 45mm Titanium fade blade zero gap adjustable

A fade blade has a flat elongated cutting surface that supports a vertical cutting motion.

### Why using a fade blade?

Fading is when the stylist utilizes a clipper and blades to gradually work the length from long to super-short: longer locks up top gradually disappearing into nothing.

### What are the benefits of a Titanium blade?

- High hardness
- Hypoallergenic
- Lower blade temperature

5-detent all metal taper arm  
(0.5 – 1.4 – 2.3 – 3.2 – 4.2 mm)

8 comb guards  
(1,5 – 3 – 4,8 – 6 – 10 – 13 – 16 – 19 mm)

Slim ergonomic thumb & bottom grip for perfect control and comfort in use

FX825GE

## TECH SPEC

### LO-PROFX clipper

- Low profile metal shield cover
- High-performance, high-torque digital motor
- 6 800 rpm
- 516 800 cutting actions/min
- High capacity lithium-ion battery
- 140 minutes runtime
- 4- hour quick charge
- Cord-cordless
- 45 mm Titanium fade blade – zero-gap adjustable
- 5-detent all metal taper arm (0.5 – 1.4 – 2.3 – 3.2 – 4.2 mm)
- 8 comb guards (n° 0.5 – 1 – 1.5 – 2 – 3 – 4 – 5 – 6)
- LED low-battery indicator
- Dual voltage

LOW PROFILE HIGH-PERFORMANCE TRIMMER

The LO-PROFX trimmer features an ultra-low profile metal shield cover with an ergonomic grip housing.

Powered by a high-performance digital 6,800 rpm motor with a high-capacity 3,300 mAh lithium-ion battery, the design and power are completed by arming the trimmer with a low temperature **Titanium** blade.

## High performance & high torque digital motor

- 6,800 rpm with constant speed tech
- over 1 074,400 cutting actions achieved by the blades in a minute
  - > outstanding cutting performance.
- Custom made metal motor bracket
  - > optimal balance

## Lithium-ion battery cord/cordless operation

- Up to 4-hour of cordless runtime reached on a 4-hour charge time
- 3,300 mAh capacity
- LED low-battery indicator

## 40mm Titanium deep-tooth 2.00mm T-blade

360° exposed & zero gap adjustable

## Why using a deep-tooth T-blade?

It is the ideal blade for thick and coarse hair and for less sensitive skins. It creates very clean lines.

## What are the benefits of a Titanium blade?

- High hardness
- Hypoallergenic
- Lower blade temperature

Slim ergonomic thumb & bottom grip for perfect control and comfort in use
